Dear Susan,

Wegmans Food Markets does not support commercial whaling nor do we support trade in Whale products.

Wegmans has called all of our supplier partners plus has verified on Trace-Register that Wegmans does not source from H.B. Grandi, Hvalur hf, or any other companies that have been identified as being involved in capture, sale or processing of whale meat. In addition we have informed our supplier partners to not purchase from any listed suppliers for Icelandic products destined for Wegmans.

Sincerely,

Carl Salamone
